PROFESSIONAL SUMMARY

Innovative Frontend Developer with expertise in Next.js, TypeScript, and React Native. Developed scalable web and mobile applications that improved user experience and performance metrics. Enhanced project timelines by 30% through effective collaboration in Agile environments. Focused on creating responsive, user-friendly interfaces while leveraging cross-functional teamwork to deliver high-quality solutions.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, HTML, CSS, React, NextJS, React Native & TailwindCSS.
- **Tools & Platforms:** Git, GitHub, Chrome DevTools, REST APIs, Figma

WORK EXPERIENCE

HNG Tech

Remote.

Frontend Developer.

Oct 2025 - December 2025

- Developed scalable full-stack web applications using Next.js, TypeScript, Convex, and Supabase.
- Transitioned into mobile development, creating native iOS/Android applications with React Native and Expo Go.
- Functioned as a Core Frontend Engineer on a cross-functional Agile team, collaborating across DevOps, Backend, Design, and Marketing.
 - Advanced through all 10 stages of a rigorous technical residency.
 - Engineered solutions that enhanced user experience and application performance.
 - Contributed to team efficiency through Agile methodologies.

ABNAT Digital Technology Limited

Remote.

Frontend Developer.

July 2025 - October 2025

- Developed and maintained frontend applications using Next.js, enhancing code quality and improving project completion timelines by 20%.
- Partnered with designers and backend engineers to implement reusable UI components and improve user flows.
- Improved delivery speed by 20% through better component reuse, bug reduction, and cleaner frontend implementation practices.
- Participated in code reviews, testing, and maintenance to improve reliability and adherence to best practices.

CAMTEL (Cameroon Telecommunications)

Yaounde, Cameroon

Frontend developer Intern.

June 2022 - November 2022

- Assisted the frontend development team in creating a WordPress-based network incident tracking system.
- Improved incident response workflow efficiency by 15% by optimizing the UI and data-entry process in a WordPress-based tracking tool.
- Improved operational response time by 15%.
- Customized themes, integrated plugins, and optimized UI components to improve performance and responsiveness.

EDUCATION

Bachelor of Technology in Computer Engineering

HIBMAT University Institute, Buea.

Buea, Cameroon.

2021-2024

SELECTED PROJECTS

- [Kurtz](#): A high-performance link shortening tool engineered for speed and reliability. Leverages Next.js Middleware for edge-based redirects and Prisma with Supabase for type-safe database queries, ensuring low-latency access and reliable data persistence.
 - Technologies used: NextJS, TypeScript, Prisma, Supabase
- [Audiophile](#): A modern, responsive e-commerce website for high-end audio equipment. Features a seamless shopping experience with product browsing, cart management, secure checkout, and transactional email confirmations.
 - Technologies used: NextJS, Convex, Nodemailer
